

Mike Kurtanick, 72 Commercial Avenue, New Brunswick, automobile mechanic who drove George Cathers' machine to the scene of murder on September 16th. He made three trips taking out officers Garrigan and Curran on the first trip at which time he inspected the bodies. There was no calling card propped up against the body of Dr. Hall but there was a calling card within a few inches of his left hand. He saw no evidences of a struggle. He brought Raymond Snyder back with him and officer Curran to the police station. On the way back, Snyder seemed very nervous and repeated several times to Mike, "I wonder what they'll do to me now", or words to that effect. Mike then made a second trip to the scene with Cardinall; came back and made a third trip with either Deiner or Ray of the New Brunswick Home News. He is a witness favorable to us and one whom the State has apparently no learned of.
